

IOSH Managing Safely

IOSH Managing Safely is a three-day course that gives managers and supervisors the knowledge and skills they need to manage health and safety within their teams.

IOSH Managing Safely covers responsibilities for health and safety, hazard identification, assessing and controlling risks, accident investigation and measuring performance.

IOSH Managing Safely gives managers the confidence to drive health and safety performance within their teams and to improve the health and safety culture of their organisation as a whole.

Why it works

- Designed for managers and supervisors in any sector and in any country
- Provides the knowledge and tools required to manage safely
- Flexibility of delivery that suits your business
- Efficient and effective learning – health, safety and environmental basics covered in a single programme
- Managers who successfully complete Managing Safely can optionally attend the Managing Safely Refresher course to update their knowledge when required.

What to expect

- Memorable and thought-provoking facts and case studies
- Modules backed by clear examples and recognisable scenarios
- Summaries to reinforce key points
- Checklists and materials supplied for subsequent use in the workplace
- Interactive quiz and discussions
- Practical exercise based on the operations of a real business
- Successful delegates awarded a Managing Safely certificate

Top 5 business benefits

- Greater productivity – fewer hours lost to sickness and accidents
- Improved organisation-wide safety awareness culture and appreciation of safety measures
- Active staff involvement to improve the workplace
- Be awarded a Managing Safely certificate from the Institution of Occupational Safety and Health (IOSH), the world's largest health and safety membership organisation
- Internationally recognised certification for managers and supervisors
- Enhanced reputation within the supply chain

Top 5 delegate benefits

- Ensures you can assess and control risks and hazards
- Ensures you understand your own responsibilities for safety and health
- Enables you to investigate incidents
- Empowers you to measure your own performance
- Allows for personal reflections on good practice

Duration

3 days

Participants

Max. of 16

Location

You can attend a course at one of our training centres, or have the course delivered in your workplace.

About IOSH accreditation

IOSH stands for Institution of Occupational Safety and Health, the Chartered body for health and safety professionals. IOSH is a UK-based organisation offering professional qualifications in order to raise standards of health and safety in the workplace.

IOSH courses are aimed at employees and managers who don't have specific responsibility for health and safety or are working in a lower-risk industry.
